One of the things that always irked me about tecmo was the lack of music while navigating through the menus, shedules, standing etc. I'm not sure if anyone else has found this before, but I figured I'd post it here for anyone who does not know how to add music to menu items.

Let's say you wanted to add the hidden song (sound 32 from the sound test) to the main menu of the game when you start.

goto offset 0X01E152 you'll find:

```
8E 06 54 45 41 4D 20 54 45 41 4D
```

THIS COORESPONDS TO:

```
<8E - DRAW> TEAM DATA
```

to play the hidden song I moved the

```
8E 06 forward 2 spots, replacing the TE in "TEAN DATA"
```

and replaced it with: F3 33

F3 - play sound command

33 - the sound number.

I also replaced the left over "EM DATA"

with just "DATA" followed by a few spaces

hex 20.

You can also use this to add sounds to other menu items in the game.

The downside is you have to toss out 2 bytes of data to do it.

here's a list of hex values for some of the songs I've found.

```
45 - SUPERBOWL CREDIT SONG
```

```
44 - SUPERBOWL CHAMP SONG
```

```
43 - PRESEASON PLAYER 1
```

```
42 - PRESEASON PLAYER 2
```

```
41 - SEASON PLAYER 1
```

40 - SEASON PLAYER 2
3F - PLAYOFF Player 1
3E - PLAYOFF Player 2
3D - PRO BOWL Player 1
3C - PRO BOWL player 2
3B - "READY"
3A - ON THE FIELD - first song the rom plays
39 - "READY" EXTENDED version
32 - STANDINGS MUSIC
31 - CHAMP MUSIC

how in the hell was this your first and only post on this board and not one person made a comment about how friggin sweet this information is?

Total props dude, unless someone else just told you how to do this. In that case, props to that dude c/o Bas.

I can't condone that type of conduct... but fortunately I do have some singles.

Can you have it say the "hut hut hut" in the menus, or some of the menus?

I think that would be pretty sweet. It would be annoying if I was new to the sound, but I know all of us here have heard it too many times. For me it has gone from annoying, to pleasant background noise.

Just an update.

0x01 stops the current song playing

0x02 fades out the current song playing.
