I know this has been posted, and I remember seeing it about a month ago, but now I can't find it again. How do you edit the pro bowl rosters in the 32 team rom?

here - ask if you have any questions. (no need to "paste into notepad first" anymore, BAD_AL fixed that problem and I never updated the notes on the spreadsheet) this thing is loaded with rosters, uniforms, and playbooks SETting.

awesome! thanks buck. i thought i was going to have to crack open the old hex editor, but this is a piece of cake. You even have most of my choices filled in already, lol. I'm going to link to this from one of the stickied threads in the hacking section.

I just tried this out and it's a lot easier than it looks. Super cool. Thanks Buck!

I'm tinkering with the ProBowl rosters and came across this and thought I'd bump it as others may be interested in doing the same for this year's end of season roms or next season's upcoming roms. Thanks!
