I tried serching the forums and found nothing, so I figured I would ask. Has anyone changed the colors of the goal posts? I was thinking of changing them to white. Is this possible?

The original goal post colors are white in TSB. The TecmoBowl.org goal post colors were changed to yellow.

Any idea where I would change this? I can't seem to find it?

I can't find it in my notes. I had it a couple of years ago. Ask Elway; he might know.

I tried using this set command to change the field goals to yellow and it didn't work:

SET(0x2C428 ,0x28)

Any suggestions on what to do? And will this change work with the cut scenes too?
