Somebody asked for this a while back. Credit Jstout.

I think this works but I want to make sure. I have another hack where this goes. If I do the following will I be OK? I found that 2BFD2 has no hacks in this area and I want to make sure Im not fubaring myself in any way.

```
SET(0x2A534, 0x4CC2BF)
```

```
SET(0x2BFD2, 0xA5454AA5446A186972A8A9016900AA4C2FA5)
```
