nice!

does this work for COM?

Just so I have a visualization of this in my head.

Currently after an OT game it shows the OT quarters score and then the final score?

Now it would show quarters 1-4 and you can gleam the 5th quarter via the final score?

Correct.

This is mostly useful for save state uploads where previously the quarters scores would be wiped out.

Example:

<http://etc.tecmobowl.org/etc/box.php?game=130>

Here we see qtr 1-4 scores wiped out.

how does this affect the save state? does it just add the 5th qtr score after the first 4 qtrs?

the total is still correct

but it puts the OT score into the 4th

although a TD puts 7 in the qtr slot, but only adds 6 to the final from some testing.

still only 4qtr slots on the state output
