Does anyone know how to control where the split between nfc and afc teams occurs for the leaders screens? I am making a rom that has the first two divisions in the AFL and the last four in the NFL. Any help would be appreciated.

just found this today for one of my roms
x30032 nfc start
x3003A total # of teams both afc/nfc
thats all I needed if you need anything else let me know

I tried changing the bytes you mentioned but it had no effect on the two roms I tried it on. O.k. I got it now.

at x30031 a9 xx (where xx is the start of the nfc)
at x30037 a9 00 (where 00 is the start of the afc)
at x30339 a2 xx (where xx is the end of the afc)
at x3003e a9 00 (where 00 is the start of all)
at x30040 a2 xx (where xx is the end of all)

This doesn't work for my rom. The afc is showing all 10 teams but the nfc is only showing 10 as well. No matter what I change it to the nfc never shows more than 13 teams out of the 16 I need it to show. Is this one of those areas where both conferences have to be the same size or something.?
