I was doing some ROM spelunking earlier and parsed all these. It seems they are nowhere to be found on the forums. Examples are below. Download attachments for complete sets.

Enjoy!

These are to scale.

Want me to upload a PS script to convert them and blow them up? OR I can upload them bigger too. Suggested size?

Can you put these in a zip file? OR somewhere they can be downloaded all at once?

I think a .zip file of larger icons (the size of this forum's avatars, for instance) that can be linked to in our Tecmo resources thread [here](#) would be pretty sweet.

Please excuse my ignorance if this has been answered already, but is there a way in either TSB or Original TB to change the player sizes or use the sizes of players that was used in NES Ice Hockey. Attached is an example of what I mean. The O and D linemen could be the Bigger players. The Tight Ends, full backs, linebackers and some safeties could be the mid sized...

Does anyone know where you can find game sprites for Tecmo Super Bowl. Kind of likes these ones for Mario.
