Type in the player 1 RS, RP, MS values in the D43,E43, and F43 boxes. Player 2 values go in the I43, J43,K43 boxes.

For defenice players MS add 100 to their ms value. Ex if a defensive players ms is 50 you would type 150 into the box.

Basically it will show how many yards each players has traveled after x seconds starting from a standstill. One thing to think about for RB's is that most run plays start about 8yds deep so most rb's are at full speed by the time you control them.
