Does anyone know how to make the game sort the Receiving Leaders screen by yardage instead of catches? I'm not talking about accessing the side menu to just look at the yardage leaders, but rather the default Leaders screen.

really cool idea and elegant solution! now, change the "yards" menu to "receptions list"?!

are the rest of the "sortings" similar and in the same location as this?

Generally the sorting was being created before 20F995 but sometimes calculations get thrown off like the QB Rating. There likely is some type of workaround to such issues but I only really looked for what was needed earlier.
