This would be something useful for league box scores or TPC uploads. As you know if you go to overtime the scores for each quarter are erased.
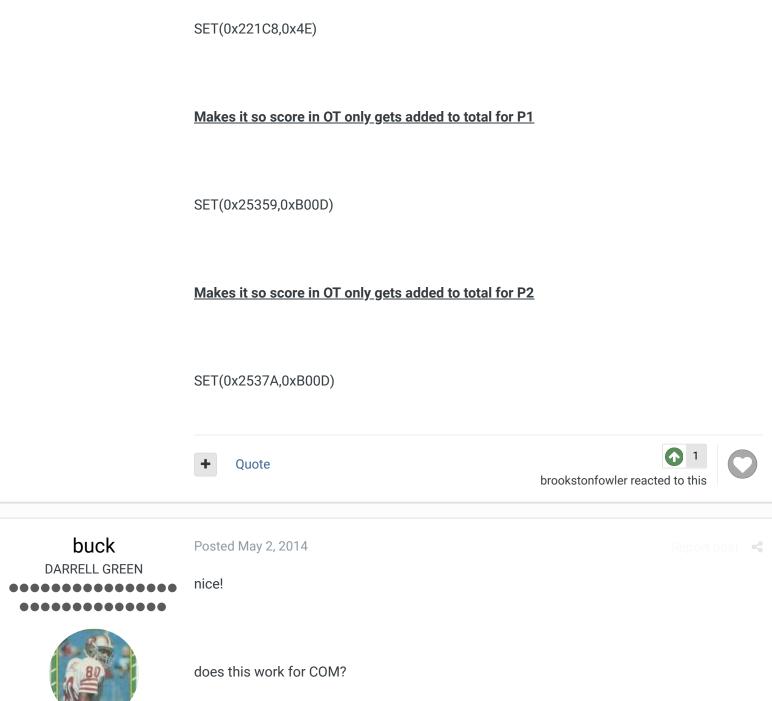

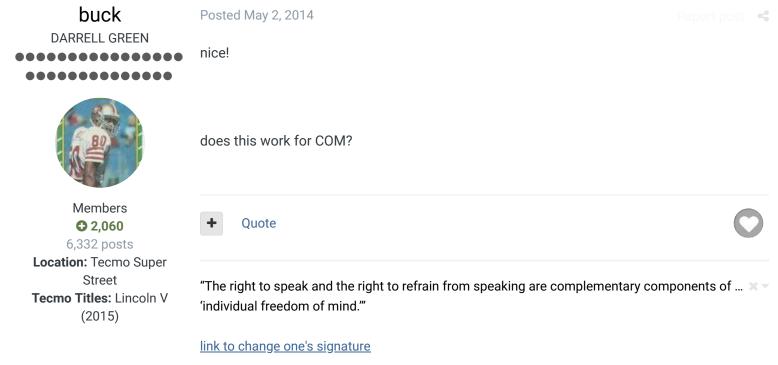

Prevents quarter scores from being cleared in OT

SET(0x2215A,0xEAEAEAEAEAEAEAEAEAEAEAEAEAEAEAEA)

Shows full QTR scoreboard in OT TIE

SET(0x2217B,0x4E)

Shows full QTR scoreboard in OT WIN

SET(0x221C8,0x4E)

Makes it so score in OT only gets added to total for P1

SET(0x25359,0xB00D)

Makes it so score in OT only gets added to total for P2

SET(0x2537A,0xB00D)

Just so I have a visualization of this in my head.

Currently after an OT game it shows the OT quarters score and then the final score?

Now it would show quarters 1-4 and you can gleam the 5th quarter via the final score?

Correct.
This is mostly useful for save state uploads where previously the quarters scores would be wiped out.
Example:
http://etc.tecmobowl.org/etc/box.php?game=130
Here we see qtr 1-4 scores wiped out.

how does this affect the save state? does it just add the 5th qtr score after the first 4 qtrs?

●●●●●●

the total is still correct

but it puts the OT score into the 4th

although a TD puts 7 in the qtr slot, but only adds 6 to the final from some testing.

still only 4qtr slots on the state output
